Case No. 2013-00258

To Whom It May Concern:

I am writing in regards to the letter I received from Classic Construction, Inc. I am deeply concerned about the amount of the rate increase they are requesting. I get my water and sewer bill from Peaks Mill Water and have never gone over the minimum usage amount and still my bill is \$56.27 per month. Classic Construction is asking for a 55% hike in their rate which would put my monthly bill at \$71.70.

While I understand their need to increase their rate, I do not understand their need to raise it by 55%. I have not seen a raise in over 5 years, nor will I get one this year due to the economy. I have canceled cable, use a magic jack for my phone (I don't have a cell phone either), and am struggling to pay my medical bills (I have cancer). Could you please tell me what else I should give up in order to make my water/sewer payment?

Please do not approve the enormous rate increase that Classic Construction is proposing. It will hurt a lot of people who simply cannot afford another high bill.

With regards,

Karen Veenstra
